

Our complaints performance

The total number of complaints received during January, February and March (Q1) 2017 was 126,724. This is higher than the previous quarter (116,057) but lower than complaints received in Q1 2016 (130,881).

Through our complaints improvement programme, we've continued to look at the causes of customer dissatisfaction. We've then addressed these causes by making improvements to our systems and processes. We will continue making positive changes throughout 2017 and beyond.
